

## **Military Implications for the Future Security Environment**

Invitation: NATO Framework for Future Alliance Operations Workshop Brussels, Belgium  
12-13 November 2014.

Allied Command Transformation (ACT) and Allied Command Operations (ACO) are pleased to announce the convening of the next Framework for Future Alliance Operations (FFAO) Workshop on 12-13 November 2014. This event will continue the development of the FFAO. FFAO is the second part of NATO's long-term military transformation effort, aiming to support and inform the NATO Defence Planning Process and acts as the Strategic Commanders' vehicle to provide best military advice for future operations. Having developed phase 1 and 2 of the FFAO by defining Instability Situations in Budapest and Strategic Military Perspectives in Amsterdam, this third workshop will be a key milestone in the implementation of the last phase of FFAO development. The aim of this workshop will be to generate Military Implications for NATO, using the Instability Situations and the Strategic Military Perspectives that were derived during the previous workshops.

The workshop will take place in the Royal Military Academy Brussels and it will continue to leverage the expertise of our broad community of interest in this area of study. It will build on the results of the FFAO workshops held in Budapest and Amsterdam in April and June 2014. To ensure success, ACT and ACO seek the broadest possible participation and extend this invitation to all NATO organisations and Nations of the Alliance, particularly to the NATO Centres of Excellence. Please join us in Brussels on 12-13 November 2014 for an exciting exchange of ideas and insights.

We will post this invitation with further administrative details, the agenda and the read ahead on our website, <http://www.act.nato.int/futures-ws-2>, and send it via email when available. If you wish to attend please reply via e-mail to LTC David Wilson, [David.wilson@act.nato.int](mailto:David.wilson@act.nato.int) and LTC Paul de Ruiter, [Paul.Deruijter@act.nato.int](mailto:Paul.Deruijter@act.nato.int). Should there be any administrative questions, ACT points of contact are LTC Wilson or LTC De Ruiter, (+1-757-747-3489/3181 or NCN 555-3489/3181).
