

# NATO Allied Command Transformation

## Trident Juncture (TRJE18)

## Fact Sheet – NATO Alliance Ground Surveillance Force Receive & Disseminate Intelligence Surveillance & Reconnaissance

<b>TRJE18 Mission:</b>	TRJE18 provides an environment for existing or new capabilities to be tested, refined, and further developed. By coordinating and integrating experiments from NATO entities and Nations into TRJE18, we seek to allow the best experimental results without placing exercise objectives at risk. Allied Command Transformation Operational Experimentation has assigned a TRJE18 Venue Coordinator since the number of TRJE18 experiments now exceeds 20 activities, ranging from discovery to validation.
<b>Experiment Description:</b>	<p>NATO Alliance Ground Surveillance Force Intelligence Surveillance and Reconnaissance (ISR) is designed to help advance the effective inclusion of Joint ISR federated Processing, exploitation and dissemination capabilities into NATO planning and operations. When fully operational, NAGSF will fundamentally change the way NATO shares ISR data. Under the current system NATO is reliant on member Nations to fulfil requests for the collection and exploitation of ISR data.</p> <p>The aim of this experiment is to test the ability of NATO members to share ISR data in a joint environment and support the TRJE18 exercise by providing the Air Component Command Targeting Cell with exploited imagery products.</p>
<b>The TRJE18 Opportunity:</b>	TRJE18 offers a platform for intelligence specialists and operators to work with key stakeholders to identify data and mission requirements and the architecture needed to support requirements for NATO Nations to share and exploit data back to the Alliance.
<b>Categories:</b>	Live Exercise
<b>Milestone:</b>	Apr 2018 – Main Event List/Main Incidents List Scripting Apr 2018 - Volcanic Ambition May 2018 - Steadfast Cobalt Jun 2018 – Unified Vision 25 Oct – 7 Nov 2018 – Live Exercise Execution Post TRJE18 Experimentation - Validation of current processes and information exchange, issues, shortfalls and required changes to aid initial operational capability declaration
